

Dobbs v. Jackson Women's Health Organization

Updates from the Office of MS Attorney General Lynn Fitch

July 2, 2021

KEY ARGUMENT:

Protecting the Legitimate Interests of the People

"The people's elected legislators and the people's elected governors fulfill the will of the people when they pass laws on life and women's health. And those include protecting babies with Down syndrome, requiring informed consent for mothers, and more."

"The Founding Fathers established legislators and governors as the appropriate bodies to balance competing and legitimate interests like this. They are held accountable to striking the right balance for the people at the ballot box. It's a process we will affirm."

-A portion of Attorney General Lynn Fitch's comments during a pro-life coalition meeting hosted by Susan B. Anthony List.
