ATTORNEY GENERAL

Preventive Measures

Register for the national **Do Not Call** registry at **DoNotCall.gov**

Download a call-blocking app. Some apps are free, but others charge a monthly fee. Some apps access your contacts and can block numbers not included in your contacts. Calls might be stopped, ring silently, or go straight to voicemail.

See what built-in features your phone offers under the **settings menu**.

See what **call-blocking** and **call-labeling** services your carrier offers, such as internet-based and VoIP blocking/labeling services.

Don't directly reply or click on any links sent from unknown numbers, as it could potentially be spam. Forward spam text messages to **7726**.

If you are still receiving calls after registering your number with the **Do Not Call** registry, download the **AGO in Action App** to create a profile and file complaints.
